## David Blatherwick Joins OPEN SCAN®

**Denver, CO – April 14, 2009** – OPEN SCAN Technologies, Inc., the leading provider of accounts receivable processing automation software, is pleased to announce that David Blatherwick has joined the organization as Chief Technology Officer. David brings more than 20 years of experience building world-class software, having previously served as Chief Architect and Chief Technology Officer at Recondo Technology, Inc. and MidTech respectively. His background in building transaction processing, process management and integration systems provide him with a solid foundation to execute OPEN SCAN's vision.

"I am excited to transform our engineering organization and further an environment where employees succeed individually and as a whole," said Blatherwick. "I'm looking forward to creating valuable and unique software that provides significant savings to our clients while dramatically improving their accounts receivable process."

Recently, Blatherwick instituted an enhanced version of Agile SCRUM at OPEN SCAN which enabled the engineering team to dramatically increase the value and quality of its software products. It also allows OPEN SCAN to quickly deliver solutions that support the needs of its clients.

"David is a highly accomplished executive and leader with proven success in growing software development organizations. We are excited to have David join our team," said Nadine Lange, President and CEO. "OPEN SCAN is looking forward to the next level of excellence."

###

### **About OPEN SCAN**

Founded in 1998, Open Scan Technologies Inc. offers automated accounts receivable (A/R) process solutions that help clients apply payments faster and with more accuracy. The company's solution delivers the convergence of electronic check deposit, remittance processing, forms processing and cash application. Corporations, financial institutions and government agencies realize the highest levels of automation, data accuracy and operational savings for their receivables processing environments.
